| ECSE | 13 | 5 | 5 | 100\% | 43 | 40-49 |
| CERTIFICATION |  |  |  |  |  |  |
| All Candidates | Total | Started <br> Taking <br> Exams <br> N | \% of <br> Candidates <br> that Began <br> Taking <br> Exams | Fully <br> Certified <br> N | \% of Candi Began Exa in Certifica | tes who Resulting n |
|  | 21 | 11 | 52\% | 5 | 45\% |  |
| CSE | 8 | 4 | 50\% | 1 | 25\% |  |
| ECSE | 13 | 7 | 54\% | 4 | 57\% |  |

## Pattern of Taking Teacher Certification Exams

The EPP's completers for 2019 represented two degrees offered in the Department of Development and Special Education. It is the Early Childhood Special Education (ECSE) and Childhood Special Education (CSE). Of the 2019 graduating teacher candidates (21), fifty-two percent of them took at least one teacher certification exam resulting in five fully certified teacher candidates upon graduation. Although ECSE candidates attempted more exams than CSE candidates, the majority of candidates that took exams irrespective of degree program successfully passed exams. The recommended pattern for taking exams would naturally result in more candidates taking the EAS, CST Students w/ Disabilities, and separately taking subsections of the CST Multisubject exam resulting in the varied number of candidates taking all exams. The fewest number of candidates completed the edTPA, the last exam that is taken during the last semester of preparation - Clinical Practice II.

## Teacher Certification Exam Results

Overall teacher candidates in both degree programs maintained an $80 \%$ or better pass rate with the exception of the CSE teacher candidates wherein 2 of the 3 teacher candidates that attempted the Language Arts (Part 1) section of the CST Multisubject passed representing 66\% sub-section pass rate.

## Certification

The certification process continues beyond graduation because only $52 \%$ of candidates attempted exams prior to graduation. There is a unique balance between candidates void of preparation taking exams and passing the exams that are attempted.

## Recommendations

The EPP is exploring using different modalities to better fit tutoring into candidates work and school schedules. We will pilot offering online and face to face tutoring in order to support the continued development of teacher candidates' content and pedagogical content knowledge and skills. The Department needs to increase its monitoring of teacher candidates' participation in tutoring.

When tutoring is delivered in both online and face to face, sessions are recorded and referred to at a later time. Often candidates will attend tutoring in the beginning of the semester and during the intersession. This discontinuous or intermittent approach to tutoring results in a lack of efficacy and, therefore, some teacher candidates remain feeling ill-equipped to begin to take teacher certification exams. Workshops provided in the Summer and during Intersessions will continue to provide teacher candidates and graduates the opportunity to continue their march towards successfully completing teacher certification exams, which can take two years or more after graduation.

OMIT REMAINDER OF THIS SECTION WITH DISAGGREGATED SCORES UNTIL POST COVID-19
